## Academic Degrees:

Habilitation, University of Vienna, 1997.  
Ph.D. (with highest distinction), University of Karlsruhe, 1990.  
M.Sc. in Mathematics and Philosophy (with highest distinction), FU Berlin, 1987.

## Academic Career:

Dean of Studies 'Digital Economics,' Dept. Economics and Business Eng., KIT, since 2023.  
Director, Institute of Economics, KIT, since 2013.  
Full Professor (Chair of Economic Theory), KIT, since 2003.  
Dean, Department of Economics and Business Engineering, KIT, 2008-2012.  
Vice-Dean, Dept. Economics and Business Engineering, KIT, 2004-2008 & 2014-2016.  
Associate Professor, University of Bonn, 1997-2003.  
Assistant Professor, University of Vienna, 1993-1997.  
Post-doctoral Fellow, Harvard University, Massachusetts (USA), 1991-1992.

## Awards, Grants and Distinctions:

Kalman Visiting Prize, University of Auckland, New Zealand, 2025.  
Invited Distinguished Research Fellow, Corvinus Institute for Advanced Studies, 2024/25.  
Oliver Smithies Fellow, Balliol College, University of Oxford, 2022.  
Principal Investigator, KD2-School (funded by the German Science Foundation), 2021-2026.  
Elected Member of the Senate of Karlsruhe Institute of Technology, 2018 -2022.  
Distinguished Visitor Award, University of Auckland, New Zealand, 2013.  
Figdor-Prize for Law, Social and Economic Sciences, Austrian Academy of Science, 1996.  
Numerous Teaching Awards, KIT, 2008-2020.

## Visiting Positions:

University of Oxford (United Kingdom), Corvinus Institute for Advanced Studies (Hungary),  
University of Auckland (New Zealand), Université de Paris Dauphine (France),  
European University St.Petersburg (Russian Federation),  
State University of New York (USA), Massey University (New Zealand),  
University of Melbourne (Australia), University of California at Davis (USA).

# 1 Refereed Publications

## 1.1 Books

1. *Condorcet Domains. The Mathematics of Coherent Collective Decision-Making* (with Arkadii Slinko), Springer Nature, 2026.
2. *The Handbook of Rational and Social Choice*, edited by P. Anand, P. Pattanaik and C. Puppe, Oxford University Press, 2009.
3. *Distorted Probabilities and Choice under Risk*, Lecture Notes in Economics and Mathematical Systems 363, Berlin–Heidelberg: Springer, 1991.

## 1.2 Articles in Journals

4. Arrovian Independence and the Aggregation of Choice Functions (with Claudio Kretz), *Social Choice and Welfare* (2026), <https://doi.org/10.1007/s00355-026-01661-x>.
5. Do Performances of Violin Virtuosi Fade over Time? A Response Using the Nash Collective Utility Function (with Attila Tasnádi), *European Journal of Operational Research* 333 (2026), 203-215.
6. Preference Diversity (with Matthias Ammann), *Review of Economic Design* (2025), <https://doi.org/10.1007/s10058-025-00386-0>.
7. Maximal Condorcet Domains. A Further Progress Report (with Arkadii Slinko), *Games and Economic Behavior* 145 (2024), 426-450.
8. New Characterizations of Strategy-Proofness under Single-Peakedness (with Andrew Jennings, Rida Laraki and Estelle Varloot), *Mathematical Programming* 203 (2024), 207-238.
9. Note on ‘A classification of peak-pit maximal Condorcet domains’ by Guanhao Li, *Mathematical Social Sciences* 128 (2024), 16-17.
10. Strategy-Proofness and Responsiveness imply Minimal Participation (with Michael Müller), *Economic Theory Bulletin* 11 (2023), 131-151.
11. Voting: A Machine Learning Approach (with Dávid Burka, László Szepesváry and Attila Tasnádi), *European Journal of Operational Research* 299 (2022), 1003-1017.
12. Mean versus Median Voting in Multi-Dimensional Budget Allocation Problems: A Laboratory Experiment (with Jana Rollmann), *Games and Economic Behavior* 130 (2021), 309-330.
13. Towards a Classification of Maximal Peak-Pit Condorcet Domains (with Guanhao Li and Arkadii Slinko), *Mathematical Social Sciences* 113 (2021), 191-202.
14. Condorcet Domains, Median Graphs and the Single-Crossing Property (with Arkadii Slinko), *Economic Theory* 67 (2019), 285-318.
15. The Single-Peaked Domain Revisited: A Simple Global Characterization, *Journal of Economic Theory* 176 (2018), 55-80.
16. On Discounting and Voting in a Simple Growth Model (with Kirill Borissoff and Mikhail Pakhnin), *European Economic Review* 94 (2017), 185-204.

17. Unanimity Overruled – Majority Voting and the Burden of History (with Klaus Nehring and Marcus Pivato), *Journal of Theoretical Politics* 28 (2016), 552-597.
18. Manufacturer Suggested Retail Prices, Loss Aversion and Competition (with Simona Fabrizi, Steffen Lippert and Stephanie Rosenkranz), *Journal of Economic Psychology* 53 (2016), 141-153.
19. Introduction to the Special Issue “Experiments on Conflicts and Conflict Resolution” (with David Masclet), *Social Choice and Welfare* 45 (2015), 479-488.
20. Axiomatic Districting (mit Attila Tasnádi), *Social Choice and Welfare* 44 (2015), 31-50.
21. The Condorcet Set – Majority Voting over Interconnected Propositions (with Klaus Nehring and Marcus Pivato), *Journal of Economic Theory* 151 (2014), 268-303.
22. Do Wage Cuts Damage Work Morale? - Evidence from a Natural Field Experiment (with Sebastian Kube and Michel Maréchal), *Journal of the European Economic Association* 11 (2013), 853-870.
23. The Currency of Reciprocity – Gift-Exchange in the Workplace (with Sebastian Kube and Michel Maréchal), *American Economic Review* 102 (2012), 1644-1662.
24. Non-Bossy Social Classification (with Dinko Dimitrov), *Mathematical Social Sciences* 62 (2011), 162-165.
25. Why Suggest Non-Binding Retail Prices? (with Stephanie Rosenkranz), *Economica* 78 (2011), 317-329.
26. Abstract Arrowian Aggregation (with Klaus Nehring), *Journal of Economic Theory* 145 (2010), 467-494.
27. Justifiable Group Choice (with Klaus Nehring), *Journal of Economic Theory* 145 (2010), 583-602.
28. Inequality Aversion and Efficiency with Ordinal and Cardinal Social Preferences (with Dorothea Herreiner), *Journal of Economic Behavior and Organization* 76 (2010), 238-253.
29. Essential Alternatives and Freedom Rankings (with Yongsheng Xu), *Social Choice and Welfare* 35 (2010), 669-685.
30. Optimal Districting under Geographical Constraints: Why “Pack and Crack” does not Work (with Attila Tasnádi), *Economics Letters* 105 (2009), 93-96.
31. (When and How) Do Voters Try to Manipulate? - Experimental Evidence from Borda Elections (with Sebastian Kube), *Public Choice* 139 (2009), 39-52.
32. Envy-Freeness in Experimental Fair Division Problems (with Dorothea Herreiner), *Theory and Decision* 67 (2009), 65-100.
33. Choice Under Complete Uncertainty When Outcome Spaces Are State-dependent, (with Karl Schlag), *Theory and Decision* 66 (2009), 1-16 (lead article).
34. A Computational Approach to Unbiased Districting (with Attila Tasnádi), *Mathematical and Computer Modelling* 48 (2008), 1455-1460.
35. Nash Implementable Domains for the Borda Count (with Attila Tasnádi), *Social Choice and Welfare* 31 (2008), 367-392.

36. Consistent Judgement Aggregation: The Truth-Functional Case (with Klaus Nehring), *Social Choice and Welfare* 31(2008), 41-57.
37. Distributing Indivisible Goods Fairly: Evidence from a Questionnaire Study (with Dorothea Herreiner), *Analyse & Kritik* 29 (2007), 235-258.
38. The Structure of Strategy-Proof Social Choice: General Characterization and Possibility Results on Median Spaces (with Klaus Nehring), *Journal of Economic Theory* 135 (2007), 269-305.
39. Efficient and Strategy-Proof Voting Rules: A Characterization (with Klaus Nehring), *Games and Economic Behavior* 59 (2007), 132-153.
40. Non-Manipulable Domains for the Borda Count (with Martin Barbie and Attila Tasnádi), *Economic Theory* 27 (2006), 411-430.
41. Testing (Beliefs about) Social Preferences: Evidence from an Experimental Coordination Game (with Thorsten Chmura, Sebastian Kube und Thomas Pitz), *Economics Letters* 88 (2005), 214-220.
42. Modelling Cost Complementarities in Terms of Joint Production (with Klaus Nehring), *Journal of Economic Theory* 118 (2004), 252-264.
43. Modelling Phylogenetic Diversity (with Klaus Nehring), *Resource and Energy Economics* 26 (2004), 205-235.
44. Diversity and Dissimilarity in Lines and Hierarchies (with Klaus Nehring), *Mathematical Social Sciences* 45 (2003), 167-183.
45. A Simple Procedure for Finding Equitable Allocations of Indivisible Goods (with Dorothea Herreiner), *Social Choice and Welfare* 19 (2002), 415-430.
46. A Theory of Diversity (with Klaus Nehring), *Econometrica* 70 (2002), 1155-1198.
47. Ein Modell von Vielfalt (with Klaus Nehring), *Zeitschrift für angewandte Umweltforschung Sonderheft* 13 (2001), 192-202.
48. Sequential Contributions to Public Goods: On the Structure of the Equilibrium Set (with Rudolf Kerschbamer), *Economics Bulletin* 8 (2001), 1-7.
49. On the Multi-Preference Approach to Evaluating Opportunities (with Klaus Nehring), *Social Choice and Welfare* 16 (1999), 41-63.
50. Voluntary Contributions when the Public Good is not Necessarily Normal (with Rudolf Kerschbamer), *Journal of Economics* 68 (1998), 175-192.
51. Extended Partial Orders: A Unifying Structure for Abstract Choice Theory (with Klaus Nehring), *Annals of Operations Research* 80 (1998), 27-48.
52. On the Possibility of Efficient Private Provision of Public Goods through Government Subsidies (with Georg Kirchsteiger), *Journal of Public Economics* 66 (1997), 489-504.
53. On the Formation of Political Coalitions (with Georg Kirchsteiger), *Journal of Institutional and Theoretical Economics (Zeitschrift für die gesamte Staatswissenschaft)* 153/2 (1997), 293-319.
54. An Axiomatic Approach to 'Preference for Freedom of Choice', *Journal of Economic Theory* 68 (1996), 174-199.

55. Continuous Extensions of an Order on a Set to the Power Set (with Klaus Nehring), *Journal of Economic Theory* 68 (1996), 456-479.
56. Intransitive Choices Based on Transitive Preferences: The Case of Menu-Dependent Information (with Georg Kirchsteiger), *Theory and Decision* 41 (1996), 37-58.
57. Freedom of Choice and Rational Decisions, *Social Choice and Welfare* 12 (1995), 137-153.
58. Rational Choice Based on Vague Preferences, *Annals of Operations Research* 52 (1994), 67-81.
59. Decisions under Risk and Uncertainty: A Survey of Recent Developments (with Peter Kischka), *ZOR - Methods and Models of Operations Research* 36 (1992), 125-147.
60. Preference Functionals with Prize-Dependent Distortion of Probabilities, *Economics Letters* 33 (1990), 127-131.

### Book Review

61. "Supermodularity and Complementarity" by D.M. Topkis, *Journal of Economics* 70 (1999), 212-214.

## 1.3 Chapters in Books and Conference Proceedings

62. Participation in Voting over Budget Allocations: A Field Experiment (with Jana Rollmann), in: *Advances in Collective Decision Making. Interdisciplinary Perspectives for the 21st Century*, edited by S. Kurz, N. Maaser and A. Mayer, Springer, 2022.
63. Generalizing the Single-crossing Property on Lines and Trees to Intermediate Preferences on Median Graphs (with Adam Clearwater and Arkadii Slinko), *International Joint Conference on Artificial Intelligence*, Buenos Aires, 2015.
64. Judgement Aggregation: A Survey (with Christian List), in: *The Handbook of Rational and Social Choice*, edited by P. Anand, P. Pattanaik and C. Puppe, Oxford, Oxford University Press, 2009, 457-482.
65. Diversity (with Klaus Nehring), in: *The Handbook of Rational and Social Choice*, edited by P. Anand, P. Pattanaik and C. Puppe, Oxford, Oxford University Press, 2009, 298-320.
66. K.J. Arrow's "Social Choice and Individual Values", in: *Lexikon der ökonomischen Werke*, edited by D. Herz and V. Weinberger, Stuttgart, Verlag Wirtschaft und Finanzen, 2006, 13-14.

68. Ein Modell phylogenetischer Diversität (with Klaus Nehring), in: *Messung und ökonomische Bewertung von Biodiversität: Mission impossible?*, J. Weimann et. al. (Hrsg.), Marburg: Metropolis Verlag, 2003.
69. Individual Freedom and Social Choice, in: *Freedom in Economics: New Perspectives in Normative Analysis*, ed. by J.F. Laslier, M. Fleurbaey, N. Gravel und A. Trannoy, London: Routledge, 1998, 49-68.
70. Impersonal versus Objectivist Conceptions of Freedom: A Comment, in: *Freedom in Economics: New Perspectives in Normative Analysis*, ed. by J.F. Laslier, M. Fleurbaey, N. Gravel und A. Trannoy, London: Routledge, 1998, 93-98.

## 2 Unpublished Manuscripts

### 2.1 (to be) submitted for Publication

71. Aggregating Incomplete Lists (with Attila Tasnádi), KIT Working Paper Series in Economics No. 172, July 2025.
72. Deliberation in Group Decisions: Polarization and Like-Mindedness (with Jessica Jachimowicz), mimeographed, March 2025.
73. Multi-Dimensional Social Choice under Frugal Information: Imprecise Bayesian Foundations for the Tukey Median (with Klaus Nehring). February 2025.
74. Multi-Dimensional Social Choice under Frugal Information: The Tukey Median as Condorcet Winner Ex-Ante (with Klaus Nehring), KIT Working Paper Series in Economics No. 160, March 2023.
75. Condorcet Solutions in Frugal Models of Budget Allocation (with Klaus Nehring), KIT Working Paper Series in Economics No. 156, March 2022.

### 2.2 Other Manuscripts (selection)

76. The Single-Crossing Property on a Tree (with Adam Clearwater and Arkadii Slinko), February 2014.
77. The Structure of Strategy-Proof Social Choice. Part II : Non-Dictatorship, Anonymity and Neutrality (mit Klaus Nehring), Universität Karlsruhe, March 2005, downloadable at: <http://micro.econ.kit.edu/puppe.php>
78. Strategy-Proof Social Choice on Single-Peaked Domains: Possibility, Impossibility and the Space Between (with Klaus Nehring), Universität Bonn, March 2002, downloadable at: <http://micro.econ.kit.edu/puppe.php>
79. Modelling Economies of Scope (with Klaus Nehring), SFB-303 Discussion Paper A-607, Universität Bonn, December 1999.
80. A Qualitative Theory of 'Preference for Opportunities and Diversity' (with Klaus Nehring), Universität Wien, Working Paper No. 9504, July 1995.
81. A Note on the Revelation of (Quasi-)Transitive Preferences, Institut für Statistik und Mathematische Wirtschaftstheorie, Universität Karlsruhe, Preprint Series, May 1993.
82. A Note on Binary Choice Probabilities and Random Preference Maximization, Department of Economics, Harvard University, November 1991.
83. The Irrelevance Axiom, Relative Utility and Choice under Risk, Institut für Statistik und Mathematische Wirtschaftstheorie, Universität Karlsruhe, Preprint Series 90-04, April 1990, partly published in: *Distorted Probabilities and Choice under Risk*.

## 2.3 Lecture Notes

84. “Ökonomische Theorien der Gerechtigkeit”, University of Bonn, June 2001 and University of Karlsruhe, April 2004.
85. “Entscheidungstheorie”, University of Bonn, June 1999.
86. “Die Keynesianische Theorie”, script for the lecture VWL I (macroeconomic theory), University of Karlsruhe, edited by: Verein Karlsruher Wirtschaftswissenschaftler e.V., December 1989.

## 3 Academic Service

### 3.1 Editorships

Advisory Editor, *Social Choice & Welfare* (since 2024).

Coordinating Managing Editor (Editor-in-Chief), *Social Choice & Welfare* (2020 – 2024).

Managing Editor, *Social Choice & Welfare* (2012 – 2019).

Associate Editor, *Society and Economy* (since 2017), *Social Choice & Welfare* (2008 – 2012).

Member of Editorial Board, *Economics and Philosophy* (since 2015).

Co-Editor, *Handbook for Rational and Social Choice* for Oxford University Press.

Co-Editor, *Theory and Decision Library* for Springer Publishers.

### 3.2 Memberships

Academic Advisory Board, Corvinus University, Budapest, Hungary (2026 – 2029).

Elected Member, Theoretischer Ausschuss, Verein für Socialpolitik (since 2002).

Elected Member, Council of the Soc. for Social Choice and Welfare (2010 – 2014 and since 2024).

Scientific Board, Murat Sertel Centre for Advanced Economic Studies, Bilgi University, Istanbul.

Advisory Board, Moroccan Center for Game Theory, UM6P University, Rabat.

Advisory Board, Centre for Mathematical Social Sciences, University of Auckland.

Advisory Board, Applied and Theoretical Economics Research Network, Massey University.

Advisory Board, Institut Ökonomie der Zukunft.

Executive Board, KD<sup>2</sup> Lab, Karlsruhe Institute of Technology (2016 – 2022).

### 3.3 International conferences organized or co-organized:

Dagstuhl Seminar “Societal Impact of Computational Social Choice,” Schloss Dagstuhl, Sept. 2025.

Conference in Honor and Memory of Nora Szech, KIT, June 2024.

“Voting Theory and Preference Aggregation,” International Conference in Honor of Klaus Nehring at the occasion of his 65th Birthday, KIT, Oct. 2023.

Online Workshop “Strategy-Proof Aggregation,” KIT, November 2020.

Workshop “Theory and Experiments,” KIT, September 2018.

Workshop “Implementation Theory,” KIT, January 2018.

Workshop “Probabilistic and Social Choice Theory,” KIT, November 2017.

Workshop “Social Choice: Theory and Experiments,” KIT and EFI, Berlin, June 2016.

“Experiments on Voting,” KIT and Université de Strasbourg, Ottrott (Alsace), July 2015.

“Mathematics of Electoral Systems,” Corvinus University Budapest, October 2013.

OECD Conference “New Directions in Welfare”, OECD Paris, July 2013.

“New Developments in Judgement Aggregation and Voting Theory”, KIT, September 2011.

OECD Conference “New Directions in Welfare”, OECD Paris, July 2011.

“New Directions in Welfare”, Oxford University, June 2009.

Workshop on Judgement Aggregation, University of Karlsruhe, September 2007.

## **3.4 Refereeing** (selection)

### **3.4.1 Reviewer for Journals and Book Series**

American Economic Review, American Economic Review Insights, American Journal of Political Science, Annals of Applied Probability, Annals of Operations Research, Archives in Data Science, B. E. Journal of Theoretical Economics, British Journal of Political Science, Bulletin of Economic Research, Cambridge University Press, Decisions in Economics and Finance, Discrete Applied Mathematics, Discover Analytics, Ecological Economics, Econometrica, Economica, Economic Bulletin, Economic Journal, Economics and Philosophy, Economics Letters, Economic Theory, Empirica, European Economic Review, European Journal of Political Economy, Games, Games and Economic Behavior, German Economic Review, Homo Oeconomicus, Humanities and Social Sciences Communications, International Economic Review, International Journal of Game Theory, International Journal of Optimization and Control: Theories and Applications, Journal of Economic Behavior and Organization, Journal of Economics (Zeitschrift für Nationalökonomie), Journal of Economic Theory, Journal of Environmental and Resource Economics, Journal of Institutional and Theoretical Economics (Zeitschrift für die gesamte Staatswissenschaft), Journal of Mathematical Economics, Journal of Mathematical Psychology, Journal of Monetary Economics, Journal of Philosophy, Journal of Public Economics, Journal of Public Economic Theory, Journal of the ACM, Journal of the Italian Operational Research Society, Kluwer Academic Publishers, Mathematical Methods of Operations Research, Mathematical Programming, Mathematical Social Sciences, Mathematics of Operations Research, Moral Philosophy and Politics, Order, Oxford University Press, Political Studies, Quarterly Journal of Economics, Review of Economic Design, Review of Economic Studies, Risk, Decision and Policy, SIAM Journal on Applied Mathematics, SIAM Journal on Discrete Mathematics, Spanish Economic Review, Social Choice and Welfare, Springer Publisher, Southern Economic Journal, Symmetry, Synthese, Theoretical Economics, Theory and Decision, Verein für Socialpolitik, Zeitschrift für Wirtschafts- und Sozialwissenschaften, 4OR.

### **3.4.2 Reviewer for Science Organizations**

ERC – European Research Council, DFG – German Science Foundation, National Science Foundation (U.S.A.), Alexander von Humboldt Stiftung (Germany), BSF – United States-Israel Binational Science Foundation, Economic and Social Research Council (U.K.), Fonds zur Förderung der wissenschaftlichen Forschung (Austria), Israeli Science Foundation, Max Planck Gesellschaft (Germany), Swiss National Fonds, The Netherlands Organization of Scientific Research, Centre National de la Recherche Scientifique (CNRS) France, Social Sciences and Humanities Research Council (Canada), COST Association (Brussels), Bayrisches Staatsministerium für Bildung und Kultus, Wissenschaft und Kunst, Verein für Socialpolitik (Germany).

### **3.4.3 Rank and Tenure Decisions**

Member of numerous national and international rank and tenure committees.

### **3.4.4 Program Committees**

Member of numerous program committees of international conferences, most recent:

SCaLa (Auckland 2024, Program Committee Member),

iCare (Perm 2021, Program Committee Member),

AAAI (New York 2020, Senior Program Committee Member),

Society for Social Choice and Welfare (Seoul 2018, Program Committee Member).

## 4 Invited Lectures (selection)

### 4.1 International Conferences

PeerRank Workshop, Università Cattolica del Sacro Cuore, Milano, January 2026.

Conference in Honor of Hervé Moulin's 75th Birthday, University of Glasgow, June 2025.

Public Lecture, University of Auckland, April 2025.

ADRES (Ass. Development of Research in Econ & Stats), Université de Strasbourg, Jan. 2025.

"New Developments in Games and Social Choice", Université de Franche-Comté, Nov. 2023.

COMSOC Summer School, Amsterdam, July 2023.

International Conference in Honour of Arkadii Slinko, Auckland, December 2022.

OSGAD Seminar "Ordered Structures in Games and Decision", Paris, November 2022.

Workshop "Algorithms for Participatory Democracy", Schloss Dagstuhl, July 2022.

International Conference in Honour of Philippe Mongin, Paris, November 2021.

"Intl. Conference on Mathematical Optimization for Fair Social Decisions," Paris, December 2019.

"Applied Research in Economics and Finance," Perm, September 2019.

"Improving Public Debate and Political Decision Making," London, March 2019.

"Mathematics and Politics: Democratic Decision Making," VW Foundation Hannover, May 2018.

Tagung des Theoretischen Ausschusses des Vereins für Socialpolitik, Bonn, May 2018.

Workshop on Advancements in Social Choice, Université de Lausanne, September 2017.

Winterschool on Inequality and Social Welfare Theory, Canazei, January 2017.

OSGAD Seminar "Ordered Structures in Games and Decision", Paris, November 2016.

Autumn School "Computational Social Choice & Fair Division", St. Petersburg, Oct.2016.

Interdisciplinary Symposium "The Vienna Circle", ZKM Karlsruhe, July 2016.

Workshop "Fair Division", Schloss Dagstuhl, June 2016.

Tagung des Theoretischen Ausschusses des Vereins für Socialpolitik, Basel, April 2016.

Workshop on Game Theory and Social Choice, Budapest, December 2015.

Workshop on Challenges in Algorithmic Social Choice, Bad Belzig, October 2014.

Workshop "Judgement Aggregation for Artificial Intelligence", Schloss Dagstuhl, May 2014.

OECD Conference "New Directions in Welfare", Paris, July 2013.

Workshop of the Centre of Mathematical Social Science, Auckland, March 2013.

Algorithmic Game Theory and Computational Social Choice, Singapur, February 2013.  
COMSOC, Krakow, September 2012.  
Symposium "Social Choice", Maastricht University, April 2012.  
OECD Conference "New Directions in Welfare", Paris, July 2011.
